

Featured Project: Reeded Decorative Window Film

Location: Calgary, Alberta

Film Installed: Clear Reeded (Fluted) Decorative Window Film

Project Goal

Add privacy between spaces while upgrading standard clear glass to the look of premium fluted glass.

Project Overview

This project involved two interior glass panels separating a gym from an adjacent lounge area. The client wanted increased visual privacy without blocking natural light while achieving a refined, architectural finish.

The Solution

Clear Reeded decorative window film was installed to transform the flat glass into a fluted-glass appearance. The vertical reeded pattern provides privacy while still allowing light to flow between spaces, delivering the look of custom architectural glass at a fraction of the cost and disruption.

Key Benefits

- Adds privacy between the gym and lounge
- Mimics the look of premium fluted glass
- Maintains natural light and openness
- Cost-effective alternative to glass replacement
- Clean, modern architectural aesthetic

Installation

- Precise alignment of the vertical reeded pattern
- Clean, seamless installation with minimal disruption

Result

The finished installation enhanced privacy between the two spaces while elevating the overall interior design. The clear reeded film delivered the appearance of high-end fluted glass, improved functionality, and preserved brightness creating a refined transition between the gym and lounge.
